

**Product description**

- **STERILIZATION**

Each part of the product (rack, trays, bottles etc.) can be sterilized.

- **WALLS**

Plastic side walls are easily removable what makes possible connection of multiple racks and allows animals to freely move horizontally through cages.

- **HINGES**

Detachable wire door can be mounted on the left or right side of the rack thanks to two pair of hinges.

- **CAGE BOTTOM**

Perforated bottom and tray can be taken out for cleaning purposes.
